2024 Rio de Janeiro Summit Final Compliance Scores

This assessment is based on relevant, publicly available information relating to actions taken from 20 November 2024 to 20 August 2025. The compliance scores by commitment are contained in Table 2. Country rankings are listed in Table 3 and commitment rankings are listed in Table 4. For the compliance period, for all 13 commitments selected for analysis, G20 members achieved average compliance of +0.40 (70%), up from the interim score of +0.28 (64%). Table 5 list compliance scores for all G20 summits by member in Table 5.

2024 Rio de Janeiro Summit Final Compliance by Member

For compliance with the 13 selected Rio Summit's priority commitments, 2024 host Brazil and the European Union had the highest compliance at +0.85 (92%), followed by Japan and the United Kingdom at +0.77 (88%). They were followed by Australia, Canada, Korea and Italy at +0.62 (81%) and China, France and Indonesia at +0.54 (77%). The United States had the lowest compliance at -0.46 (27%). The difference between the highest and lowest G20 member compliance is 1.3. The scores ranked by member are listed in Table 3.

2024 Rio de Janeiro Summit Final Compliance by Commitment

At +0.86 (93%), the commitment on energy transition supply chains had the highest score, followed by disaster risk reduction at +0.71 (88%) and the commitments on biodiversity, inclusive health systems and macroeconomic policy with +0.67 (83%). The commitment on humanitarian efforts in Gaza and Lebanon had the lowest compliance, with a score of -0.05 (48%). All the scores ranked by commitment are listed in Table 4.

Table 1: 2024 G20 Rio de Janeiro Summit Commitments Selected for Compliance Monitoring*

1	We support reliable, diversified, sustainable and responsible supply chains for energy transitions, including for critical minerals and materials beneficiated at source, semiconductors and technologies. (2024-122)
2	We reaffirm our commitment in the New Delhi Leaders' Declaration to collectively mobilize more headroom and concessional finance to boost World Bank capacity to help low- and middle-income countries that need help in addressing global challenges, with a clear framework for the allocation of scarce concessional resources, and to provide strong support for the poorest countries. (2024-150)
3	[We]...support the African Union to realize the trade and economic integration and aspirations under its Agenda 2063 as it enters its second decade of implementation. (2024-168)
4	In order to deliver on the promises of the United Nations and other relevant international organizations around the world, we pledge to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century. (2024-137)
5	We recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5 C pathways [and call on members to contribute to the global efforts against climate change, in a nationally determined manner, taking into account the Paris Agreement and their different national circumstances, pathways and approaches, as addressed in GST-1.]. (2024-102)
6	We commit to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. (2024-78)
7	We reaffirm the commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the COP15 to the Convention on Biological Diversity (CBD). (2024-124)
8	We remain committed to building more resilient, equitable, sustainable, and inclusive health systems for the provision of integrated people-centered health services, including mental health. (2024-43)
9	Our fiscal policies will safeguard fiscal sustainability and rebuild buffers, remain growth-friendly, and catalyze public and private investments towards productivity enhancing reforms. (2024-10)
10	While expressing our deep concern about the catastrophic humanitarian situation in the Gaza Strip and the escalation in Lebanon, we emphasize the urgent need to expand the flow of humanitarian assistance and to reinforce the protection of civilians [and demand the lifting of all barriers to the provision of humanitarian assistance at scale.] (2024-16)
11	We also aim to address the challenges of fertilizer shortages, including through strengthening local production, trade, increase fertilizer efficiency, and utilize biofertilizers while addressing the need to improve soil health and minimize water pollution. (2024-25)
12	We commit to implementing the G20 Roadmap Towards and Beyond the Brisbane Goal. (2024-32)
13	In this sense, we emphasize the need for digital platforms' transparency and responsibility in line with relevant policies and applicable legal frameworks and will work with platforms and relevant stakeholders in this regard. (2024-59)
